

Explore the possibilities of Cortellis Drug Discovery Intelligence

Cortellis Drug Discovery Intelligence (CDDI), the successor of Integrity, is a powerful pharmaceutical pipeline database, bringing together biological, chemical and pharmacological data. With CDDI, you can

- assess the target landscape
- analyze the early competitive landscape
- benchmark your drug against your competitors

Whether you already have an account or are eager to get one of our limited seats, join the training session on

March 24, 2021

4:00 – 5:00 pm

Dr. Núria Fornés Escudé

Customer Education Specialist, Life Sciences, Clarivate

Agenda

- Getting started with CDDI
- Advanced features of CDDI, e.g.
 - Assess the competition in your area of interest
 - Search for compounds with similar pharmacological data
 - Find chemical structures similar to yours
 - Benchmark pharmacology across similar drugs
 - Evaluate putative and validated targets
- Question & Answer Session
